(TS# 73911)

~~SECRET~~

Memorandum to DDP fr ADSO commenting cautiously but favorably on TSS Program FY 53 and outlining OSO requirements for TSS research. This paper became Tab B, PRC Action, 6 June 52.

Comment: it is interesting to note that both ADSO and ADPC state their first priority for TSS research is agent authentication and list this need above audio and weapons. Agent authentication was also listed as first priority by OSS operators.
